

Sir/Ma'am,

I am a subscriber to XM satellite radio and have recently learned that the National Association of Broadcasters (NAB) wants to limit a service that I pay for; Local Traffic and Weather! I pay for the service and use it every day on the way to work or when I see a traffic jam coming up. It is extremely useful, saves me time, and contributes to public safety due to the reporting of adverse weather in a timely manner.

Due to all the benefits that this service brings me, I am urging you to reject the NAB's petition number 04-160 so this service can continue operating.

Sincerely, Paul Aubin
